## Notes for Worship Leaders

### Tips for Song Selection

1. **Consider your congregation** - Choose songs that resonate with your specific community
2. **Balance familiarity and freshness** - Include both well-known songs and new material
3. **Mind the singability** - Select songs in keys that most people can sing comfortably
4. **Create thematic coherence** - Choose songs that connect to the sermon or season
5. **Pay attention to flow** - Plan transitions between songs for natural progression

### Keys for Transposing

- Most congregations are comfortable singing in the range from A below middle C to D above it
- Consider lowering keys for songs originally recorded by professional vocalists
- Common adjustments:
  - For male-led songs: Often lower by 1-3 steps for congregational singing
  - For female-led songs: May need to lower by 2-4 steps for congregational singing

### Song Introduction Tips

1. **Scripture connection** - Share a verse that connects to the song's theme
2. **Brief context** - Give a one-sentence background about the song if relevant
3. **Personal meaning** - Share why the song is meaningful (briefly)

4. **Lyrical focus** - Draw attention to specific powerful lyrics

5. **Invitation to participate** - Encourage engagement beyond just singing

### **Sample Song Introduction**

For "Great Are You Lord": "Psalm 150 calls us to praise God with everything we have. As we sing this next song, let's remember that every breath we take is a gift from God that we can use to praise Him. Even in difficult seasons, we can declare that God is good and worthy of our worship."

### **CCLI Information**

Remember to ensure proper licensing for all songs used in public worship through CCLI (Christian Copyright Licensing International) or similar organizations. Display appropriate copyright information when projecting lyrics.
